CLUES AND GUESSES

In each episode of **Imagined Life** the narrator details events from a famous person's life using storytelling techniques that draw the listener into the story causing us to guess who the subject of the story is. Use this sheet to jot down clues as you listen. Clues could be any of the following: the setting of the story, details about obstacles this person is facing, details about the person's family, friends, or love interests. Sometimes the narrator may mention job successes or failures that might lead to a guess about who this is. As you write down clues, feel free to make a guess about who the famous person may be. Try to write down at least 10 clues as you listen; each clue does not need to lead to a guess. Since you'll be sitting and listening to the entire episode, feel free to also doodle or color in the margins to keep your mind engaged.
